PROFILE

Passionate Software Engineer with years of verifiable success in delivering appropriate technology solutions for web and mobile products. Comprehensive knowledge of platform development, enterprise architecture, agile methodologies, cloud services, and web-based applications.

EDUCATION

Algonquin College, Computer Engineering

Ottawa

Dec 2017 - Jun 2021

Great Lakes College Of Toronto, High School Diploma

Toronto

Jan 2014 - Jan 2015

EMPLOYMENT HISTORY

Software Developer, HealthBrain

Ottawa

Oct 2018 - Sep 2019

- Developed data models for applications, metadata tables, views and related database structures.
- Verified stability, interoperability, portability, security, or scalability of system architecture.
- Value prototyping and proving first
- Built dynamic, highly performant web applications using agile development methodology
- Worked closely with other engineers in a small, informal team environment
- Focused on creating end-user value
- Built interactive UI design and Restfully abstract the UI through a Node js backend

Software Developer Intern, Qlik

Ottawa

Apr 2018 - Sep 2018

- Familiarized myself with the challenges and approaches for designing interconnected, scalable systems.
- Took an iterative approach to development, dividing long-term goals into incremental milestones.
- Thrived in a fast-paced and collaborative environment.
- Took ownership and build of an end-to-end feature that spans multiple teams.
- Implementation of public APIs, especially REST-based, and application components.
- Familiarized myself with cloud technologies such as AWS, Azure, Docker, Kubernetes.
- Familiarized myself with languages such as JavaScript (node.js) and Go.

AWARDS

Dean's Honours List

Award given to a student registered in an Ontario College Credential or bachelor's degree program with complete the equivalent of a full-time term course load and a grade point average (GPA) for the term between 3.60 and 4.00 with no grade below C minus.
